

To MCC Employees Responsible for Purchasing Equipment and Supplies:

The College has active membership in multiple purchasing co-ops/consortiums. These consortiums offer the college, volume pricing discounts on most of the products and services the college uses for its operation. The discounts being offered in most cases are better than what the college could get from bidding out these products and services directly.

We are asking all individuals requesting purchase orders for the College, to first check the companies listed in these consortiums when getting price quotes for products or services. The consortiums listed have met all legal bid requirements for the state of Illinois. **Orders over \$5,000 must receive board approval prior to order.**

When asking for quotes, inform the sales representative that you are requesting the pricing from that particular consortium. Also, when turning in requisitions for purchase orders to these companies, make sure to write on the requisition, the name of the consortium where the discounts are offered.

Please contact Business Services if you have any questions about ordering from these consortiums. We will be happy to assist with this process.

Each consortium along with products and/or services offered, are found on the following pages:
